

Lordstown Motors Reports Fourth Quarter and Fiscal Year 2021 Financial Results

February 28, 2022

LORDSTOWN, Ohio, Feb. 28, 2022 /PRNewswire/ -- Lordstown Motors Corp. (Nasdaq: RIDE), ("Lordstown Motors" or "LMC"), a provider of electric light duty trucks focused on the commercial fleet market, today released its fourth quarter and fiscal year 2021 financial results and provided a business update.

Fourth Quarter and Recent Key Business Highlights

- Ended 2021 with a cash balance of \$244 million, \$79 million above the midpoint of the previously issued outlook on disciplined spending, favorable working capital, additional equity issuances and a deferral of certain investments into 2022
- Executed the asset purchase agreement with Foxconn to initiate the Company's strategic shift to a less capital-intensive business model focused on developing, engineering, testing and industrializing vehicles in partnership with Foxconn, with Foxconn manufacturing the Endurance in the Lordstown facility
- Raised \$182 million in capital, comprised primarily of \$100 million in down payments by Foxconn for sale of the Lordstown facility, \$50 million from the sale of common stock to Foxconn and \$30 million in other equity issuances; an additional \$50 million down payment from Foxconn was received on January 28, 2022
- Began building and testing Endurance pre-production vehicles for validation and homologation
- Strengthened the senior leadership team and managed a challenging operating environment throughout 2021, including the impacts of COVID-19 and supply chain disruptions

Outlook

- Reaffirm third quarter 2022 target for commercial production and sales of the Endurance
- Expect commercial production and sales of the Endurance of approximately 500 units in 2022 growing to as many as 2,500 units in 2023
- Anticipate investments in hard tooling and other actions to drive significant reduction in the Endurance bill of materials into 2023 and beyond
- Working toward finalizing the Foxconn transaction, including the contract manufacturing agreement, and seeking an
 agreement and funding structure to develop new vehicles in collaboration with Foxconn based off the MIH platform
- Continue efforts to raise additional capital to fund commercial launch of the Endurance and operating plan

Executive Commentary

"The fourth quarter marked a significant strategic shift for Lordstown Motors," said Dan Ninivaggi, Chief Executive Officer of Lordstown, "We executed the asset purchase agreement with Foxconn and have made substantial progress on the terms of our contract manufacturing agreement, subject to review by the Committee on Foreign Investment in the US (CFIUS). I believe the Foxconn partnership is a critical step in unlocking the full potential of the Lordstown facility and brings multiple benefits to LMC. Our ongoing discussions with Foxconn are focused on reaching a definitive agreement for the joint development of future vehicles off the MIH platform with an appropriate funding structure to enable us to raise the necessary capital for the success of our partnership."

"Our organization's top priority remains bringing the Lordstown Endurance full size all-electric pickup to market as quickly and efficiently as possible," said Edward Hightower, President of Lordstown. "In the fourth quarter and into 2022, we continued to build and test pre-production vehicles that we are using to complete a variety of validation activities needed to achieve full homologation. Despite ongoing challenges securing parts and other

supply chain issues, we continue to target commercial production and sales in the third quarter of 2022. We have a unique vehicle that will offer a superior combination of handling, traction control, torque and turning radius that we are confident will be appreciated by our customers. With fewer moving parts than more conventional propulsion systems, we also believe the Endurance will have advantages in overall maintenance costs."

Fourth Quarter 2021 Results

In the fourth quarter, we incurred \$85 million in operating expenses and \$30 million in capital expenditures to continue our progress towards the commercial launch of the Endurance. We also raised \$182 million in new capital, including \$150 million from Foxconn in equity and down payments under the asset purchase agreement, and \$30 million primarily from equity issuances under our equity purchase agreement.

"I am truly pleased by how our team navigated through 2021 given the macro headwinds, our strategic shift, and management transitions," said Adam Kroll, Chief Financial Officer of Lordstown. "We exercised discipline in our spending activity, made substantial progress towards the launch of the Endurance, and invested in our people, processes and technologies. However, we understand that raising additional capital in the near term is critical to the successful launch of the Endurance and the execution of our operating plan."

For the full year, we expended \$388 million in operating cash flow and \$286 million in investing, along with raising \$288 million from financing activities. The capital raises consisted of the \$150 million from Foxconn, \$82 million from the exercise of warrants and almost \$56 million from the equity purchase agreement and employee option exercises.

Forward Looking Statements

This press release includes forward looking statements. These statements are made under the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These statements may be identified by words such as "feel," "expects," "estimates," "projects," "intends," "should," "is to be," or the negative of such terms, or other comparable terminology. Forward-looking statements are statements that are not historical facts. Such forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties, which could cause actual results to differ materially from the forward-looking statements contained herein due to many factors, including, but not limited to: our limited operating history and our significant projected funding needs; our liquidity position; the need to raise substantial additional capital to continue ongoing operations; risks associated with the conversion and retooling of our facility and ramp up of production; our inability to obtain binding purchase orders from customers and potential customers' inability to integrate our electric vehicles into their existing fleets; our inability to retain key personnel and to hire additional personnel; competition in the electric pickup truck market; supply chain disruptions; the potential inability to source essential components; our inability to develop a sales distribution network; the ability to protect our intellectual property rights; and the failure to obtain required regulatory approvals. Furthermore, potential supply chain disruptions, and their consequences on testing and other activities, could present challenges that impact the timing of our commercial production. Any forward-looking statements speak only as of the date on which they are made, and Lordstown Motors undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date of this press release. In addition, the closing of the transactions contemplated by the Asset Purchase Agreement is subject to certain conditions, including regulatory approvals and the negotiation and execution of a contract manufacturing agreement, so there can be no assurance we will enter into a definitive joint venture agreement with Foxconn to co-design and develop vehicle programs.
